THE ROCKEFELLER INSTITUTE  
FOR MEDICAL RESEARCH

66TH STREET AND AVENUE A  
NEW YORK

April 17, 1926.

Dear Mary,

The Flexners gave a grand party yesterday at the Cosmopolitan Club with Miss Skinner giving Monologues. She is Otis Skinners daughter and is very attractive/ Everyone had a good time. Afterward I went to dinner with the Rous family. Peyton Rous is a man who was in the Hookers class in the medical school who has been at the Institute for a long time. He is one of the members and is a very able man, he is editor of the Journal of Experimental Medicine so he reads all of our papers.

This is the time of the staff luncheon and I am all ready to go to it with my amber beads. All the scientific directors will be here and it ought to be very nice.

Dr. Welsh is coming up Friday night and we will go on to Vassar together in the evening. Then Saturday afternoon we shall come back to New York and she will stay in my apartment while I go on to Baltimore and Washington. I shall take the Midnight down to Baltimore have breakfast with Dr. Sherwood and then go on out to the Hookers for the day. Shall take an early morning train to Washington. I will send you my address in Washington. Return here on the night train Wednesday all ready for work with our rabbits.

With love,

*Lumen*
